Dear Occupant:

We have been selected by your building management to service the exterior of your building for pests. You will receive this letter prior to our arrival and your managing company will inform you of the date we will be treating. When we treat we will be spraying the exterior of your dwelling or office. Please remove all items from your patios so we can access areas near your foundation. If items are not removed we will not be able to spray. Do NOT water near the foundation for at least 24 hours after treatment as this will break down what we applied and reduce its effectiveness.

It is important to make sure all pets and children are inside on the day we treat. Pets and children will be allowed in the exterior area two hours after treatment is completed.

Thank you,
Northwest Pest Control Inc.
